ABOUT US

Strength factory

Dongguan Haochen Anti-static Technology Co., Ltd. was established in 2012 and registered in 2017. With a registered capital of 2 million yuan and more than 30 employees, it is a professional domestic company specializing in anti-static chairs, stools, laboratory counters, operation tables, anti-static transfer carts and anti-static peripheral equipment. The company's products are mainly used in laboratories, hospitals, schools, electronic workshops, SMT workshops, dust-free workshops, dust-free assembly lines, circuit board transfer and storage, and other enterprises, institutions and individual circuit boards. They give full play to the advantages of the products, improve labor efficiency, and prevent the generation of static electricity on the circuit boards.

Leading position

recent years, on the basis of absorbing advanced technologies and processes at home and abroad, Dongguan Haochen Anti-static Technology Co., Ltd. has pooled the wisdom and experience accumulated over the years in the anti-static industry. The precision, stability and reliability of our products are at the leading level nationwide. The anti-static transfer carts produced by our company have been gradually upgraded from the first generation to the current third generation, and we are still researching and developing even more high-end products. With advanced technology, excellent quality and perfect service, our company's products have taken a leading position in the domestic anti-static equipment industry and have become the top domestic brand. Our products are available throughout the country. We actively advocate taking the market as the guide, regarding scientific research as the leading factor, and using innovation as a means to actively explore both domestic and foreign markets.

Quality service

Dongguan Haochen Anti-static Technology Co., Ltd. has won the trust and praise of domestic and foreign customers with its comprehensive and professional pre-sales, in-sales and after-sales services. Based on adhering to technological innovation, the company implements strict quality management, continuously improves its service level, and has achieved the sound development of its business.

Welcome to visit

We actively participate in promotion and industry exchange activities. During the long-term development process, with excellent product quality, good product performance and leading technological advantages, our company has established long-term and good cooperative partnership with many large domestic electronic companies. We also sincerely welcome customers at home and abroad to visit our company for investigation, visit and technical exchange!
